

Sizan Molla

Front-End Web Developer

About Me

I'm a 2nd-year university student passionate about building clean, responsive web apps using React, Next.js, and Tailwind. I have strong foundations in data structures and algorithms with Java. I've built a blog site and an ecommerce frontend. I'm a fast learner who enjoys solving problems and growing through LeetCode.

Skills & Proficiencies

- Frontend: HTML, CSS, Tailwind, JavaScript, React, Next.js.
- Strong in DSA using Java and C++ (arrays, trees, graphs, etc.)
- Built a blog site and an ecommerce fullstack
- Active on LeetCode to improve problem-solving
- Fast learner with a creative, curious mindset
